

Spirit and Space Construction Update

IN PICTURES! 

By the time you see this update, our beautiful Sanctuary will be completed!
As this goes to print we are making great progress everyday. Here are some highlights of our race to the finish!

Artist Erich Thompson with our new Chancel Cross which he delivered to us on September 24th.

Our new flooring and carpet being installed!

Our beautiful chandeliers that once hung in the Chancel have now been relocated to the balcony.

Our new parking lot is nearly finished! The new layout gives us better traffic flow, handicap parking right next to the building, several "mobility friendly" parking spots, and best of all, a main entry that requires no steps to get to!
